

# SMD Replaceable Tip Drills

## Features

- Indexable type drill with exchangeable drill head, which has a radial serration design, for high precision and strength.
- An exchangeable drill head provides a new cutting edge, higher productivity and cost efficiency with easy tool management.
- Regrinding allowance of 0.059" to 0.118" (1.5mm to 3mm) makes further tool cost reductions possible.
